

Lawn grass seeds and mixtures

Lawn grass seed mixes

by functionality (by use)

Decorative lawns are installed at the front sides of buildings, parks and squares. For planting large areas. Grass species and varieties in the mixes are distinguished by longevity and ornamentalism.

Sports turfs for children's playgrounds and stadiums. These lawns are beautiful like decorative lawns. Mixes contain perennial ryegrass and Kentucky bluegrass that are particularly resistant to trampling and make a dense turf.

Special-purpose lawns for roadsides, slopes and protective areas.

- – special mix
- – recommended mix
- – ready to use mix
- – mix that can be used
